Event Focus

Trials & Tribulations: How to do an IPv6 trial

Members researching: **18,586**

Members testing: **28,162**

Next step: Trialing

Event Content

1. Hands on workshops
2. Keynote addresses
3. Case studies
4. Functional steps
5. Products

Mashup

gogoNET LIVE!

Social network + conference

Purpose of gogoNET & gogoNET LIVE! is to connect people with common IPv6 interests so they can learn from each other

Mashup

Our common interest is how to do an IPv6 trial

We have brought together some the most knowledgeable people on the topic of IPv6 trialing so you can meet them

Live

Interface to meet people are coffee breaks, lunch, halls...

On gogoNET

Interface to meet people is the agenda

Mashup

3:00 Coffee Break

Building a Test Lab for your Trial

The screenshot shows a social media profile page for "Doyle's Page" with a modal dialog box open. The dialog box is titled "Add Jeff Doyle as a friend?" and contains the following text: "You and Jeff Doyle must be friends before you can send messages. Jeff Doyle will have to confirm your friendship." Below the text is a checkbox labeled "Include personal message" which is checked. At the bottom of the dialog are two buttons: "Add as Friend" (highlighted in green) and "Cancel".
