Twitter:

twitter.com/cav6tf

Website:

www.cav6tf.org

YES – The website is IPv6 enabled! If you see the swimming turtle then you have IPv6 working

Who makes up the CAV6TF?

You Do!

What is the purpose of the CAv6TF?

Advocacy

Dedicated to the advancement and promotion of IPv6

Education

Events and Local Meetings

Conferences

White papers

Labs

Evangelism

You got to believe baby!

Cool stickers 😊

How can I get involved?

Attend IPv6 events

Host local IPv6 events

Write technical white papers

Host local IPv6 Labs

Become a committee member of CAv6TF

Volunteer!

A warning! No IPv6 planning...
Don't be surprised by the results – no excuses!

Thank you for attending
The CAV6TF would like to thank:

specifically Bruce Sinclair for all the hard work in putting on the event

Questions and Answers

Thank You!
